

Our Stage of Life Committee

The purpose of this Committee is to provide a supportive environment for discussion of shared concern issues to the IRP membership. Activities will include the presentation of speakers on selected topics, the provision of participatory programs for members and the distribution of information of interest to the community. The Committee will continue the work of the former Social Issues Committee which addressed topics such as Family Relationships, Health and Well-Being, and Legal Issues. A mix of larger events and smaller workshops is envisaged.
